APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- ☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a) , pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- ☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b) , pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Comments on Appraisal and Report Identification

Note any USPAP related issues requiring disclosure and any State mandated requirements:

This appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989.

Uniform Residential Appraisal Report

File # 1100205384

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.									
SUBJECT	Property Address 7460 County Road 1006			City Godley		State TX		Zip Code 76044	
	Borrower Elizabeth McAlister			Owner of Public Record McAlister Randy L ETUX Bath		County Johnson			
	Legal Description ABST 894 TR 2A C WALLACE Acres:5.0000								
	Assessor's Parcel # R000021339			Tax Year 2024		R.E. Taxes \$ 712			
	Neighborhood Name Godley			Map Reference 23104		Census Tract 1302.13			
	Occupant ☒ Owner ☐ Tenant ☐ Vacant			Special Assessments \$ 0		☐ PUD HOA \$ 0		☐ per year ☐ per month	
	Property Rights Appraised ☒ Fee Simple ☐ Leasehold ☐ Other (describe)								
	Assignment Type ☐ Purchase Transaction ☐ Refinance Transaction ☒ Other (describe) Reverse								
	Lender/Client Finance of America Reverse, LLC			Address 8023 East 63rd Place Suite 700, Tulsa, OK 74133					
	Is the subject property currently offered for sale or has it been offered for sale in the twelve months prior to the effective date of this appraisal?			☐ Yes ☒ No					
CONTRACT	Report data source(s) used, offering price(s), and date(s). The subject property has not been listed for sale within the past twelve months prior from the effective date. NTREMLS								
	I ☐ did ☐ did not analyze the contract for sale for the subject purchase transaction. Explain the results of the analysis of the contract for sale or why the analysis was not performed.								
	Contract Price \$ Date of Contract Is the property seller the owner of public record? ☐ Yes ☐ No Data Source(s)								
	Is there any financial assistance (loan charges, sale concessions, gift or downpayment assistance, etc.) to be paid by any party on behalf of the borrower? ☐ Yes ☐ No								
	If Yes, report the total dollar amount and describe the items to be paid.								
NEIGHBORHOOD	Note: Race and the racial composition of the neighborhood are not appraisal factors.								
	Neighborhood Characteristics			One-Unit Housing Trends			One-Unit Housing		Present Land Use %
	Location ☐ Urban ☐ Suburban ☒ Rural			Property Values ☐ Increasing ☒ Stable ☐ Declining			PRICE	AGE	One-Unit 50 %
	Built-Up ☐ Over 75% ☒ 25-75% ☐ Under 25%			Demand/Supply ☒ Shortage ☐ In Balance ☐ Over Supply			\$ (000)	(yrs)	2-4 Unit 5 %
	Growth ☐ Rapid ☒ Stable ☐ Slow			Marketing Time ☒ Under 3 mths ☐ 3-6 mths ☐ Over 6 mths			360	Low 0	Multi-Family 5 %
	Neighborhood Boundaries The subject is North of Hwy 67, South of Sky Rd, East of Hwy 377, and West of Rt 174.						608	High 40	Commercial 10 %
							455	Pred. 0	Other 30 %
	Neighborhood Description All employment centers Schools, and Shopping Facilities are within typical, market expected proximity 3-5 miles. There are no apparent measurable evidence of adverse locational factors which might affect marketing or value.								
	No adverse factors were noted. Marketing time is typical.								
	Market Conditions (including support for the above conclusions)			Subject area values have been stable during the past six months reflecting the general stability in real estate values. Supply and demand are in shortage. There is a sufficient amount of sales in the neighborhood. Financing concessions are typical.

Effective Date of Data Source(s) 08/20/2025 08/20/2025 08/20/2025 08/20/2025									
Analysis of prior sale or transfer history of the subject property and comparable sales The subject has not sold within the three years prior from the effective date.									
Summary of Sales Comparison Approach The subject meets the minimal standards as stated in HUD handbook 4000.1 and all applicable mortgagee letters. See attached addendum for sales comparison analysis.									
Indicated Value by Sales Comparison Approach \$ 453,000									
Indicated Value by: Sales Comparison Approach \$ 453,000 Cost Approach (if developed) \$ 449,377 Income Approach (if developed) \$									
Most Emphasis was placed on the sales comparison approach to value. Cost approach was not given supportive consideration. The income (GRM) approach was not considered as homes are normally not purchased for investment purposes.									
This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: See attached Addendum.									
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 453,000, as of 08/20/2025, which is the date of inspection and the effective date of this appraisal.									

Uniform Residential Appraisal Report

File # 1100205384

ADDITIONAL COMMENTS	Digital signatures have been used in this appraisal for the purpose of electronic transmission and is in accordance with reporting requirements of the uniform standards of professional appraisal practice. This digitized image of the appraisers signature is controlled by a personalized identification number where the appraiser has sole personalized control of affixing the signature. Electronically affixing a signature to the certification in a report carries the same level of authenticity and responsibility as an ink signature on paper.			
	The intended user of this appraisal report is FHA/HUD and mortgagee. The intended use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form and the definition of market value. This report contains sufficient information to enable the lender/client to understand the report. Any other party receiving a copy of this report for any reason is not an intended user; nor does receiving a copy of this report result in an appraiser-client relationship. Use of this report by any other party(ies) is not intended by the appraiser. No additional intended users are identified by the appraiser.			
	This appraisal is not a home inspection and the appraiser is not acting as a home inspector when preparing the report.			
	"Extraordinary Assumption and Limiting Condition:" The repairs are based only on a visual inspection of any-all items noted. Any reported findings are based on readily observable findings at the time of property visit. The appraiser is not a home inspector, building contractor or engineer. The appraiser is not qualified or competent to detect items not readily observable. Any users of this report having concerns about structural integrity, mechanical, infestation, contamination or other issues about the subject property are urged to consult the services of an expert, or person trained in the particular field (s) of concern. It could, if found to be false, alter the appraiser's opinions or conclusions.			
	Gross Area Calculations: The GLA is based on measurements made by the appraiser at the time of inspection. The measurement technique used is based on the American National Standard for single family residential buildings (ANSI Z765-2021). However, due to variations associated with on-site measurements (tape stretching, obstructions, second level insets, knee walls, and non-square areas), GLA calculations are approximate. According to the American National Standards Institute the above grade finished square footage of a dwelling is the sum of the finished areas of levels that are entirely above grade. The below grade finished square footage of a house is the sum of finished areas on levels that are wholly or partly below grade.			
	"Highest and Best Use" is a Land Use Analysis that concludes maximum productivity of a site "as improved". Tests applies to the site as vacant and as improved are conclusions of Physical Possible Uses that are Legally Permissible and Economically Feasible resulting in the maximum productivity conclusion. In the Site Section, the physical and legal characteristics are summarized as are the improvements in the Improvement Section of the URAR. The economic conclusion of marketability is made in comparison with the conclusions of central tendencies and Market Conditions reported in the Neighborhood Section of the URAR. From these separate analyses, Market, Site and Improvement, the appraiser concluded that as improved, in its currently use, the subject is in its Highest and Best Use, as reported.			
	COST APPROACH TO VALUE (not required by Fannie Mae)			
Provide adequate information for the lender/client to replicate the below cost figures and calculations.				
Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value)		Market Abstraction		
COST APPROACH	ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW		OPINION OF SITE VALUE	= \$ 160,000
	Source of cost data Marshall & Swift	DWELLING 1,854 Sq.Ft. @ \$ 163.53	= \$	303,185
	Quality rating from cost service Average Effective date of cost data 2025	Basement 0 Sq.Ft. @ \$ 0.00	= \$	
	Comments on Cost Approach (gross living area calculations, depreciation, etc.)	CvPt/Dk	= \$	10,000
	Physical Depreciation is calculated using the effective age/economic life method. No significant functional obsolescence or external depreciation was noted. Land/improvement ratio is typical for the area. Total economic life is market abstracted at 60 years and has implications for both the cost and sales comparison approaches. Replacement Cost data is developed from market abstraction with Marshall & Swift. Site value was derived using the extraction method.	Garage/Carport 516 Sq.Ft. @ \$ 54.42	= \$	28,081
	Estimated Remaining Economic Life (HUD and VA only) 50 Years	Total Estimate of Cost-New	= \$	341,266
		Less Physical Functional External		
		Depreciation 56,889	= \$(	56,889)
		Depreciated Cost of Improvements	= \$	284,377
		"As-is" Value of Site Improvements	= \$	5,000
		INDICATED VALUE BY COST APPROACH		= \$ 449,377
INCOME	INCOME APPROACH TO VALUE (not required by Fannie Mae)			
	Estimated Monthly Market Rent \$	X Gross Rent Multiplier	= \$	Indicated Value by Income Approach
	Summary of Income Approach (including support for market rent and GRM)			
PUD INFORMATION	PROJECT INFORMATION FOR PUDs (if applicable)			
	Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s) ☐ Detached ☐ Attached			
	Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.			
	Legal Name of Project			
	Total number of phases	Total number of units	Total number of units sold	
	Total number of units rented	Total number of units for sale	Data source(s)	
	Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.			
	Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source			
	Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.			
	Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.			
Describe common elements and recreational facilities.				

Uniform Residential Appraisal Report

File # 1100205384

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

File # 1100205384

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

File # 1100205384

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Lender/Client	Finance of America Reverse, LLC				

I have performed no services as an appraiser or in any other capacity regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

Appraiser makes the assumption information gathered from outside sources is accurate.

Exposure time: The time a property remains on the market (Appraisal Institute's "the dictionary of real estate appraisal", fourth edition). Exposure time is approximately zero to three months. Please not unless otherwise noted exposure time is considered synonymous with marketing time.

Site value is extracted from the market and is noted as exceeding 30% of the final value. This is typical for the market due to the positive location factors. The higher ratio has no effect on the subject's marketability.

Concessions within 3% of the sale price are considered market typical, no adjustment was warranted.

The utilities were on and functional at the time of inspection.

The valuation of the subject property does not include personal property.

Local Code does not require water heater to be double strapped. CO Detectors are not required by local code. Smoke detectors are required by local code.

Sewer hook-up is not feasible at this time, and septic tanks are common for the area and with rural properties. Septic tanks are market acceptable in this particular rural market, and the comparable sales have similar sewer hook up. No leaks or odors were noted and appears to be in good working order.

The septic tank is located approximately fifty feet from the property line.

Appraiser has not been made aware of any easement regarding the subject property.

The subject is not income producing nor is it a working farm.

The other percent in present land use represents vacant land.

If destroyed the subject could be rebuilt as a single family dwelling and has no affect on marketability.

Condition of Improvements

The subject is in average condition for its age, with condition being reflected through age/life method of depreciation. No termite report was provided to the appraiser. The appraiser is not qualified to determine termite infestation. The appraiser has prepared this appraisal in full compliance with the home valuation code of conduct and has not performed, participated in, or has been associated with any activity in violation of the code.

Summary of Sales Comparison Approach

Appraiser's comparable search parameters began with a MLS search for single family homes within the prior three months, located in the subject's community of Godley, built within 17 years to 37 years ago, and containing 1,483 gla to 2,224 gla, on a 3.00 acre to 6.00 acre lot size. There is not a reasonable amount of available sales within the subject's market area. It was necessary to expand the market search. The subject is considered to be a well maintained property in C-3 condition and Q-4 quality of construction. Similar properties that have substantial updating appear to be selling at a significantly higher range of value and while similar properties with less updating appear to be selling toward the lower range of value.

The sales illustrated were considered strong indicators of the market's reaction to the subject property due to location and amenities. All sales in the subject's area are selling at or near listing price.

The most proximate comps were provided that maintained comparability or were considered comparable enough to the subject property. It is of the appraiser's opinion that comps provided is the best available to form a value opinion in this real estate market. Attached addendum for analysis of market conditions. There are no negative external influences against the subject and comparables used are of similar external factors.

Comparables #1 & #2 were given the most consideration towards the value opinion as these are the most recent sales.

Comparable #3 and #4 were given the least consideration towards the value opinion. This is not a weighted calculation but rather a consideration towards the final value opinion.

The opinion of site value was determined using land sales in the subjects market area including 6300 County Road 1126A, Godley, Tx 76044. MLS # 20534564. Adjustments were made at \$45,000 an acre.

5700 County Road 1217 was given a ocndition adjustment for inferior bathroom and flooring updates.

925 County Road 1003A was given a condition adjustment for superior flooring updates.

6616 Sundance Cir was given a condition adjustment for superior kitchen and flooring updates.

6616 Sundance Cir is outside of twenty percent GLA difference from the subject, and is included because it is the best comp available. This does not have a negative impact on the value opinion or on the subject's marketability.

A five mile radius and twelve months prior to effective date were used to research comparable sales. At least one comparable sale is outside of six months prior to the effective date and is included because it is the best available comp within twelve months of the effective date. This is not unusual in the subject's rural market area due to a lack of available sales data. This is still considered the subject's market area and does not affect the subject's marketability or impact the subject in any negative way.

Some sales have a single line item adjustment of more than 10% of the sales price. This is due to GLA and site sizedifferences and they are included because they are the best available sales.

Supplemental Addendum

File No. 1100205384

Borrower	Elizabeth McAlister					
Property Address	7460 County Road 1006					
City	Godley	County	Johnson	State	TX	Zip Code 76044
Lender/Client	Finance of America Reverse, LLC					

The net/gross adjustments are outside the ideal range due to differences in across the board amenities. This is not a reflection of an over/under improvement, but rather, there were no sales to bracket every characteristic of the subject. This percentage difference does not affect the value opinion in a negative way.

The price per square foot and amenity adjustments were derived using paired analysis. Site adjustments were given based on price per acre, because land typically does not depreciate. All other adjustments derived using paired sales analysis unless otherwise stated.

Adam Webster assisted in research and data compilation in the preparation of this report.

Survey was not available through the government portal, nor provided at the time of the inspection. A measuring tool on the GIS portal was used. Based on extraordinary assumption, if there is a difference in actual measurement it may affect value. GIS measurements are approximately 595.00 x 362.00.

The appraiser could not bracket the subject's lack of a fireplace across the board using match pair analysis, therefore no value was able to be determined to compensate for adjustments.

The cost approach was not given weight towards the value opinion. The appraiser acknowledges that the value indicated by the cost approach and the sales approach are not the same. The cost approach was developed to support adjustments as stated elsewhere in the supplemental addendum and a difference between the cost approach and the value opinion does not indicated that the subject is an over or under-improvement.

Twelve month market trends extracted from NTREMLS services indicates that the subject area values have been stable during the past twelve months reflecting the general stability in real estate values. For this reason, time adjustments were not considered necessary.

Class Valuation, LLC #TX 2000039

Appraisers Fee \$550

Appraiser Independence Certification

I do hereby certify, I have followed the appraiser independence safeguards in compliance with Appraisal Independence and any applicable state laws I may be required to comply with. This includes but is not limited to the following:

- I am currently licensed and/or certified by the state in which the property to be appraised is located. My license is the appropriate license for the appraisal assignment(s) and is reflected on the appraisal report.
- I certify that there have been no sanctions against me for any reason that would impair my ability to perform appraisals pursuant to the required guidelines.

I assert that no employee, director, officer, or agent of Finance of America Reverse, LLC, or any other third party acting as joint venture partner, independent contractor, appraisal management company, or partner on behalf of Finance of America Reverse, LLC, influenced, or attempted to influence the development, reporting, result, or review of my appraisal through coercion, extortion, collusion, compensation, inducement, intimidation, bribery, or in any other manner.

I further assert that Finance of America Reverse, LLC has never participated in any of the following prohibited behavior in our business relationship:

- 1) Withholding or threatening to withhold timely payment or partial payment for an appraisal report;
- 2) Withholding or threatening to withhold future business with me, or demoting or terminating or threatening to demote or terminate me;
- 3) Expressly or impliedly promising future business, promotions, or increased compensation for myself;
- 4) Conditioning the ordering of my appraisal report or the payment of my appraisal fee or salary or bonus on the opinion, conclusion, or valuation to be reached, or on a preliminary value estimate requested from me;
- 5) Requesting that I provide an estimated, predetermined, or desired valuation in an appraisal report prior to the completion of the appraisal report, or requesting that I provide estimated values or comparable sales at any time prior to my completion of an appraisal report;
- 6) Provided me an anticipated, estimated, encouraged, or desired value for a subject property or a proposed or target amount to be loaned to the borrower, except that a copy of the sales contract for purchase transactions may be provided;
- 7) Provided to me, or my appraisal company, or any entity or person related to me as appraiser, appraisal company, stock or other financial or non-financial benefits;
- 8) Any other act or practice that impairs or attempts to impair my independence, objectivity, or impartiality or violates law or regulation, including, but not limited to, the Truth in Lending Act (TILA) and Regulation Z, or the USPAP.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
